

Dublin and District Soccer League

The largest schoolboys
and schoolgirls soccer
league in Europe

"SportLoMo saves Clubs 1 hour per registration per player. Up to 500 hours work for a club with 500 players"

Dublin & District Soccer League

Introduction to Dublin & District Soccer League (DDSL)

- Founded in 1943 to provide a structured league system for all Dublin Clubs.
- The league caters for boys & girls from 7 to 18 years of age.
- In excess of 200 football clubs are affiliated to the DDSL. The league consists of 12 divisions and a number of clubs enter multiple teams into each division.
- The DDSL provides football for clubs in the greater Dublin area, West to Athlone, South to Arklow & North to Drogheda.
- Nearly 200,000 people play soccer throughout Ireland. Football is especially popular in Dublin's urban areas. 40,000 boys and girls will play in the capital in the 2023 season.

How SportLoMo will support the Dublin & District league's vibrant football culture

8 ways SportLoMo will help DDSL reach its goals and maximise operational efficiencies

- 1** Members will register directly to DDSL on SportLoMo. This will improve cashflow to the Association as individuals will pay directly to the League at the start of the season.
- 2** DDSL will use the newly enhanced Competition Management Module, reducing the workload on the many volunteer fixtures managers in the association.
- 3** Referee Management module will support the referee association, again reducing workload and ensuring everyone is up to date on assignments. Referees will be able to manage their availability, confirm assignments, and update game results, discipline and match reports from the Game Management App.
- 4** Clubs will have the option to collect their fees during the DDSL registration process with funds deposited directly into the club's bank account. This service is supported by the League.

- 5** Team management will allow team officials, coaches & trainers to communicate with their team members in app ensuring everyone is up to date with upcoming games which are linked directly to the central DDSL database.
- 6** Clubs can edit fixture details if they need to update venue or times where they are renting / sharing venues with other clubs. This will automatically update everyone who needs to be aware of the changes as everyone is working from the same core competition data.
- 7** Online Electronic Team Sheets will ultimately be used by clubs which will provide additional efficiencies to clubs and help the DDSL see in detail how Football in Dublin is developing, where numbers are growing/reducing, where resources are required etc.
- 8** Other SportLoMo modules to support garda vetting and child welfare will also be used by the DDSL to ensure a safe environment for all members.

**"SportLoMo saves Clubs 1 hour per registration per player.
Up to 500 hours work for a club with 500 players"**

Dublin & District Soccer League

New DDSL website to go Live August 2023

Website designed and developed by SportLoMo

The screenshot shows the homepage of the DDSL website. At the top left is the logo for the Dublin and District Schools Football League, which includes the text 'DUBLIN AND DISTRICT SCHOOLS BOYS / GIRLS LEAGUE'. To the right of the logo is a navigation bar with links for 'CLUB LOGIN', 'MEMBER LOGIN', and 'GARDA VETTING'. Further right are social media icons for Facebook, Twitter, YouTube, Instagram, and Email. Below these is a main navigation menu with links for 'HOME', 'REGISTRATION', 'COMPETITIONS', 'NEWS', 'CLUB LIST', and 'CLUB MAP', along with a search icon and a 'MENU' button. The main content area features a large photograph of soccer players in blue and black kits on a field. Overlaid on this image is the text 'UPDATED 2 March 2023' and 'DDSL Cup Final Entry System Launched'. Below the main image are four smaller article thumbnails: 1) 'DDSL CUP FINAL TICKETS' with 'UPDATED 02/03/2023' and 'DDSL Cup Final Entry System Launched'; 2) 'Gaynor Cup kicks off' with 'UPDATED 07/06/2022'; 3) 'Ardmore and Greystones collide in DDSL Final' with 'UPDATED 02/06/2022'; and 4) 'Templeogue United out in force for DDSL Cup Finals' with 'UPDATED 02/06/2022'.

The DDSL website displays club results, fixtures & tables in realtime. The league competitions are managed on SportLoMo and API feeds of LIVE competition data are auto-published to the DDSL website (no work for admins).

Club Services

Membership, Event Registration and App is provided free to clubs with the support of the League

- No setup fee
- No annual club licence fee

Clubs can collect their club fees as a player registers to the DDSL

Streamlined collection of Club Fees

Clubs can collect their club membership fee as a player registers to the DDSL thus ensuring club fees are paid on time.

New rules introduced by the Dublin & District Soccer League require all players to register before they will be eligible to play in any DDSL competition. This gives clubs an opportunity to collect their fees when a player registers to the DDSL.

A club simply sets their club fees (and adds their registration form) and this is added to the DDSL registration. When a member pays their DDSL/Club fee the club portion of the fee is diverted directly to the club's bank account. This is called 'Split payments'.

SPLIT PAYMENTS

SportLoMo was one of the first sports software providers to implement this feature as far back as 2017. "Split Pay" has been used by hundreds of clubs on the platform since then. It is one of SportLoMo's most popular club features as it dramatically reduces work, and collects fees instantly.

The Split Payment process is fully automated, Clubs just onboard with Stripe (via the SportLoMo platform), enter details of where funds should be deposited to (Club Bank Account), and set the fees on each membership type.

When a member completes registration they receive an automated email receipt of payment for DDSL and Club fees.

Clubs can create family memberships, offer early bird discounts, track all payments (no reconciling payments), run financial reports, view / contact members etc.

Using the system a club registrar can contact members, coaches, and parents, keeping everyone connected and informed.

Clubs using Club Membership on SportLoMo also have access to additional functionality such as Event Registration which can be used for registering for summer camps, club events, social events, training events etc.

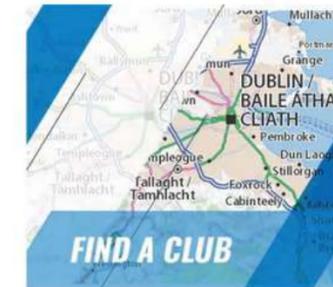

DDSL Club Membership, Event Registration and App has no setup fee or annual club licence fee. These services are provided free with the support of the League.

The top reasons why SportLoMo is the preferred choice for Clubs

- DDSL & Club fees are all taken in one payment (one fee on member's credit card), everyone paid up front.
- Clubs can add their fees to the DDSL registration and create, manage, edit and update their own Registration Forms. This service is supported by the League.
- Fees are split on registration by SportLoMo and the club's portion goes **directly** into the club's bank account.
- Clubs can offer online registration to Club Events.
- Membership admins do not need to register members on two separate systems.
- Clubs get exclusive early access to their own fixtures schedule in app.
- Club's fixtures, results and tables are automatically fed directly into the club app via the DDSL database.

Exclusive early access to DDSL fixtures

SportLoMo empowers club's through exclusive early access to DDSL fixtures. This allows Clubs to plan their team's schedule effectively. Clubs can analyse the sequence of matches, identify challenging periods, and allocate resources to optimise performance. This allows managers and coaches to make informed decisions on preparation, managing player availability, coordinating training, and scheduling friendlies for optimal team performance.

Club App

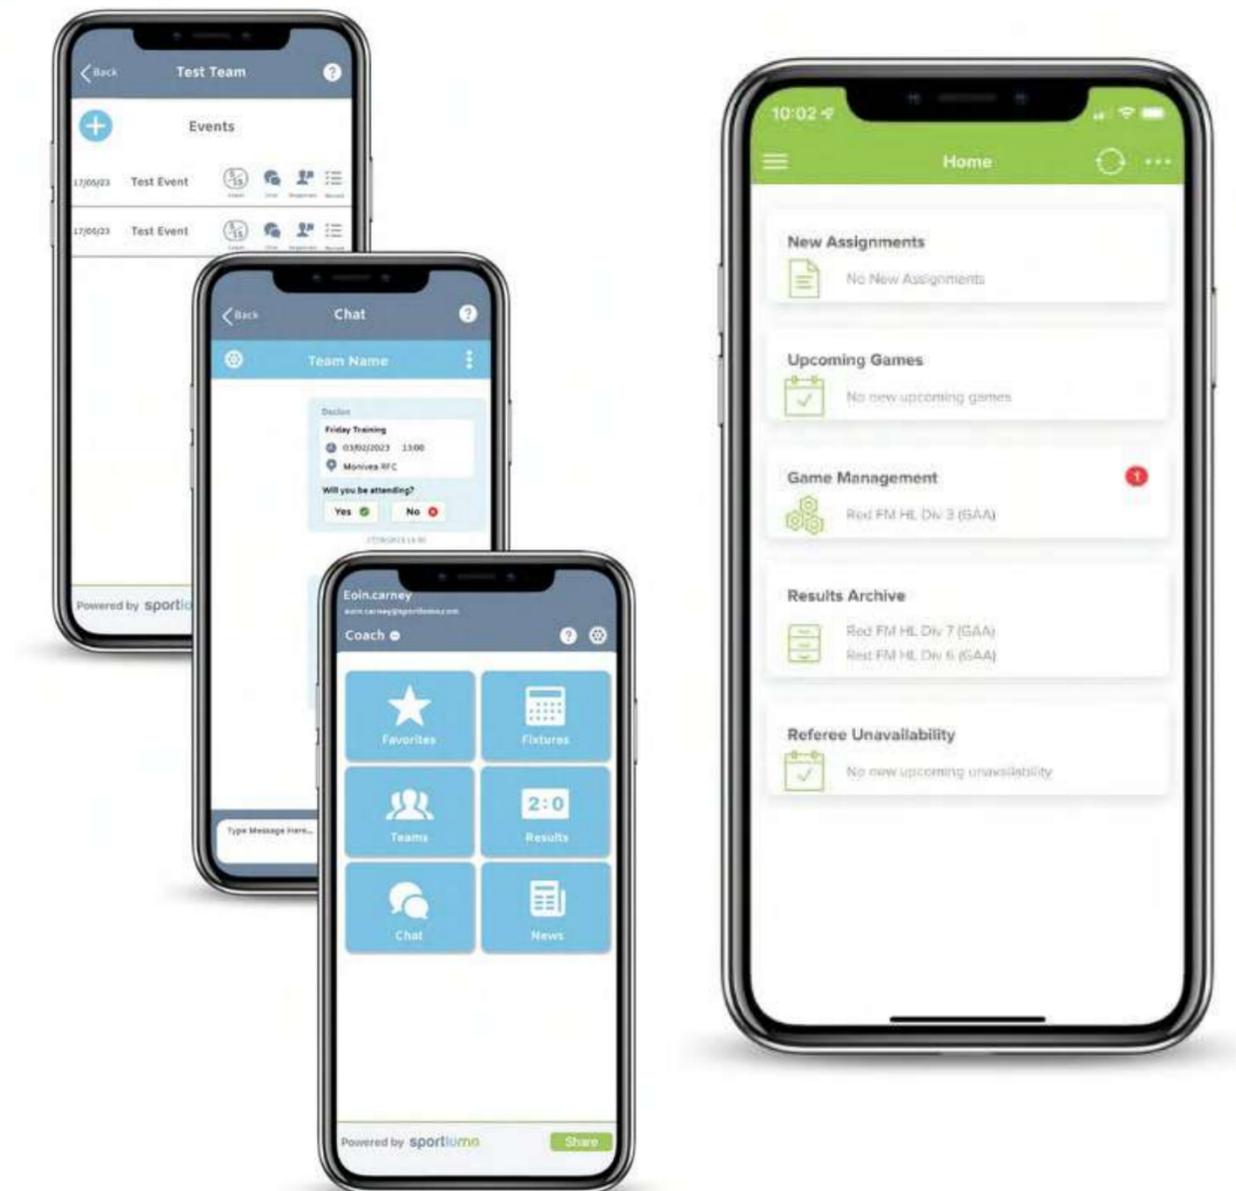

The SportLoMo Game Management App was created with players, coaches, parents, and club administrators in mind.

The SportLoMo Club App is here to revolutionise how Dublin & District Soccer League and its Clubs manage their activities and connect with their players and members.

With the app club members no longer miss out on significant events and can avoid juggling between multiple platforms to keep up with their favourite club's schedule, fixtures, results, tables and news.

The app is also used to manage attendance for training sessions.

DDSL Club Membership, Event Registration and App has no setup fee or no annual club licence fee. These services are provided free with the support of the League.

App Features

Club Fixtures and Results at Your Fingertips

Effortlessly check club's fixtures and results with just a few taps.

Add your Favourites

You can add your favourite teams and competitions to your favourites for quick and easy access.

Seamless Communication

The app's chat feature allows you receive messages, and event invites from your coaches (or your kids' coaches) ensuring you are always in the loop.

Coaches can send attendance requests for training sessions and club events, keeping track of who can and cannot attend.

Hassle-free Attendance Management

Coaches can record player attendance at events and training sessions. The dedicated "teams" section allows coaches to keep an accurate count of participants.

Stay Informed with News and Events Updates

Members can stay updated with the latest news and announcements through the app's news feature.

Continuous Improvements and new Features

Expect regular updates and the addition of new features that will further streamline interactions with the app.

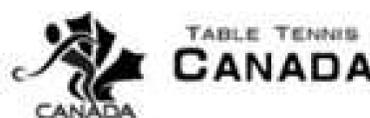

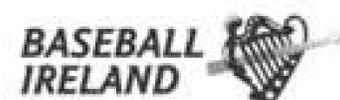

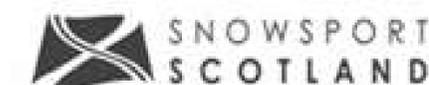

The App is also available to others sports on the SportLoMo platform - enquiries@sportlomo.com

App is available free on Android and iOS
